

**STORM WATER POLLUTION PREVENTION PLAN (SWPPP)
COMPLIANCE EVALUATION FORM for UPDES
COMMON PLAN PERMIT (CPP) UTRH00000**

Site Name: _____

UPDES Permit #: _____

SECTION 1: Instructions for SWPPP Evaluations

- 1) The SWPPPs being reviewed with this document are evaluated for their compliance with the corresponding UPDES construction storm water discharge permit; for additional information on those permits, go to the DWQ construction storm water permitting webpage: <https://deq.utah.gov/water-quality/general-construction-storm-water-updes-permits>.
- 2) The appropriate permit is identified by the applicant during permitting but must be confirmed by evaluation in Section 2 of this form (see below), to demonstrate applicability of coverage under either of the UPDES construction storm water permits:
 - a) Construction General Permit (CGP), UTRC00000 (viewable through this [link](#))
 - b) Common Plan Permit (CPP), UTRH00000 (viewable through this [link](#))
- 3) If the appropriate UPDES permit has been selected for coverage and the SWPPP has been submitted for review with a complete application, then the SWPPP evaluation must move forward; use the "SWPPP Review #" field to document whether it is the 1st, 2nd (or more) evaluation, and use the "Review Start Date" and "Review Complete Date" fields in Section 3 to track the timeliness of reviews.
- 4) Per Utah Code [Title 19-Chapter 5-Section 108.3\(6\)\(b\)](#), the SWPPP reviewer shall complete the first review of the SWPPP within 14 business days after the day on which the applicant submits a complete SWPPP and application for local storm water permit coverage (if local permit coverage is required).
- 5) A "No" answer for any questions in the following SWPPP Evaluation will amount to an incomplete SWPPP and will be returned for modification. UPDES Permit citations are provided in **(parenthesis)**. Questions answered "N/A" (not applicable) do not affect the approval of the SWPPP. The final question on both forms is an internal question (regarding priority status) for MS4s and does not affect approval.
- 6) Per Utah Code [Title 19-Chapter 5-Section 108.3\(6\)\(c\)](#), any non-compliance in the SWPPP (which requires modification to bring the SWPPP into compliance) requires a specific request for modification to be provided to the applicant; such requests must be thorough such that they will bring the SWPPP into compliance upon correction, and must include citations to local ordinances or state/federal law that require the modification. Furthermore, these requested modifications must be logged in an index of requested modifications. Space is provided for listing modifications or can be attached separately.
- 7) Per Utah Code [Title 19-Chapter 5-Section 108.3\(6\)\(d\)](#), the SWPPP reviewer has 5 business days after the day on which the operator submits the modified SWPPP to complete the review of the SWPPP. Once the review of the plan is complete, the reviewer must notify the applicant, in writing, whether the authorization to discharge is granted.

NOTE: Pre-Construction SWPPP Review Checklists are a requirement of all UPDES MS4 Permits (Part 4.2.4.3). As such, utilizing this SWPPP Evaluation forms will meet that requirement. Operators and SWPPP Developers can utilize this form to ensure compliance prior to submitting.

SECTION 2: Confirmation of Appropriate UPDES Construction Storm Water Permit Coverage

- 1) Will the project disturb at least 1-acre of land? (**CGP Part 1.1.2 and CPP Part 1.1**) Yes | No
- 2) Is the project part of a Common Plan of Development or Sale (CPoD) that will collectively disturb at least 1-acre of land? (**CGP Part 1.1.2 and CPP Part 1.1**) Yes | No
- 3) If CPoD, is the lot a single residential lot no more than 1-acre of disturbance? (**CPP Part 1.1**) Yes | No
N/A

How to determine appropriate UPDES construction storm water permit coverage:

- If "No" to both questions #1 and #2, then **no UPDES construction storm water permit is required.**
- If "Yes" to question #1 and "No" to question #2, then the project **must obtain CGP (UTRC00000) coverage** and the **CGP SWPPP Evaluation form** would be applicable for SWPPP review.
- If "Yes" to both questions #1 and #2, and "No" to question #3, then the project **must obtain CGP (UTRC00000) coverage** and the **CGP SWPPP Evaluation form** would be most applicable for SWPPP review.
- If "Yes" or "No" to question #1 (the threshold for CPP coverage is 1-acre or less) and "Yes" to both questions #2 and #3, then the project **may obtain CPP (UTRH00000) coverage** and **Section 3** of this evaluation form would be applicable for SWPPP review; **however** the CPP allows only one lot per permit, so if multiple lots in the CPoD will be developed, the operator **may choose to obtain separate CPP coverage for each lot or cover multiple lots under one CGP (UTRC00000) permit**, in which case the **CGP SWPPP Evaluation form** would be applicable for SWPPP review.
 - **NOTE: Commercial Common Plans of Development or Sale must be covered under the CGP (UTRC00000).**
- As such, if "No" to question #1, "Yes" to question #2, and "No" to question #3 (**or the project desires to cover multiple 1-acre or less residential lots under a single permit**), then the **CPP (UTRH00000) is not valid** and the project **must obtain CGP (UTRC00000) coverage** and the **CGP SWPPP Evaluation form** would be applicable for SWPPP review.
 - **NOTE: Due to CPP Part 1.1.5 (High Risk Sites), local/state permitting authorities may choose to require a site to obtain CGP (UTRC00000) coverage instead of CPP (UTRH00000) if the project is (1) located within 50 feet of a perennial surface water, or (2) if the site has a steep slope (70% or 35 degrees, or more) with an elevation change from the slope of 10 feet or more (at any point during the time of construction -not including stockpiles). If that is the case, the SWPPP evaluator should identify the site conditions that warrant that distinction/decision:**

- 4) At the completion of Section 2, has the appropriate UPDES Construction Storm Water Permit coverage been verified? **NOTE: If "No", then the SWPPP must be resubmitted with the appropriate permit coverage selected, incorporated into the plan, and obtained (unless reviewing prior to obtaining permit coverage, in which case coverage must be obtained prior to beginning land disturbance).** Yes | No

If "Yes" to question #4, **complete the review of the submitted SWPPP for the appropriate UPDES Construction Storm Water Permit coverage using the CGP SWPPP Evaluation form (for CGP) or Section 3 of this form (for CPP), respectively. Always fill out a new form for each review cycle, and retain previous forms to document progression.**

Signatures fields are included in the respective SWPPP review sections of this document; always sign and date to ensure timeliness of reviews.

Owner: _____ Phone: _____ E-mail: _____

COMMON PLAN PERMIT (CPP) SWPPP EVALUATION (with Citations)

- 1) Does the project meet eligibility criteria for the Common Plan Permit, including the 1-acre maximum disturbance, residential land-use stipulation, multiple site coverage applications (requiring a different permit number for each lot), high-risk sites (as determined by the MS4, if applicable), and limitations of the CPoD (common plan purpose not yet achieved)? **(CPP Part 1.1.1.a-d)** Yes No
- 2) Are the SWPPP contacts listed in the plan, with contact information (name, address, telephone number, email address) for owner, general contractor, or any other party that affects implementation of the SWPPP or has SWPPP responsibilities? **(CPP Part 4.2.1)** Yes No
- 3) Does the SWPPP list all the anticipated allowable non-storm water discharges at the site, and describe control methods to be utilized to manage those discharges in a manner that will minimize the discharge of pollutants? **(CPP Part 1.2.2)** Yes No
- 4) Does the SWPPP identify which perimeter sediment control BMPs will be used to prevent sediment from leaving the site? **(CPP Part 2.1.2)** Yes No
- 5) If the project is within 50-feet of a waterbody, does the SWPPP contain descriptions of the dimensions of the 50-foot natural buffer, the alternative control measures (if less than 50-feet), and detailed explanations if either could not be applied? **(CPP Part 2.1.6 and 4.2.4)** Yes No
N/A
- 6) Does the SWPPP describe what track out controls (structural or non-structural) will be used to prevent dirt from being tracked on streets as vehicles leave the site? **(CPP Part 2.1.4)** Yes No
- 7) Does the SWPPP identify whether any storm drain inlets are down gradient of (and receive discharges from) the site and describe what inlet protection BMPs will be used (if inlets are present)? **(CPP Part 2.1.3)** Yes No
- 8) Does the plan have a BMP identified for stockpiles or spoil piles placement and/or containment to prevent interaction with concentrated flows and to prevent runoff from those piles and keep them from entering storm drains or water bodies? **(CPP Part 2.1.1)** Yes No
N/A
- 9) Does the project have a BMP identified to contain, dry, and dispose of any wash water from concrete, masonry, stucco, or paint (water-based)? **(CPP Part 2.2.6)** Yes No
- 10) Does the SWPPP include waste management procedures for soil removal, clearing debris removal, demolition removal, trash disposal, construction-waste disposal, liquid waste disposal and/or sanitary waste disposal? **(CPP Part 2.2.4 and 4.2.8)** Yes No
- 11) Does the SWPPP describe methods for the storage of construction materials that minimize exposure of materials with a pollution risk (certain building and landscaping materials, pesticides, herbicides, detergents, etc.)? **(CPP Part 2.2.2)** Yes No
- 12) If the site has steep slopes (>70%), does the plan include measures to either stabilize those slopes using an appropriate BMP or to avoid disturbing those steeper areas? **(CPP Part 2.1.5.c and 2.1.7.c)** Yes No
N/A
- 13) If the site has conditions that can cause stormwater flows with highly erosive velocities, does the plan describe BMPs to control those flows and minimize sediment transport? **(CPP Part 2.1.5.d)** Yes No
N/A
- 14) If there are disturbed areas that will be left inactive for 30-days, does the plan provide a method of temporary/permanent stabilization for those areas? **(CPP Part 2.1.7.a)** Yes No
N/A
- 15) If the site is planned to be sold without landscaping, does the SWPPP include the installation of downslope erosion and sediment controls for the lot, prior to sale? **(CPP Part 1.6.7.b)** Yes No
N/A
- 16) Are the sequence and estimated dates of construction activities listed, which include the start and end of excavation activities, initial excavation, backfill excavation, and final grading, any temporary or permanent cessation of earth-disturbing activities, and the start and end of landscaping if it is done as part of the construction activity before the home is sold? **(CPP Part 4.2.2.a-c)** Yes No
